Subia Corporation

Phoenix, Arizona
June 1998 - December 1999

Intelligence Analyst / Watch Officer, National Security Operations Center

As an NSA Intelligence Analyst, scanned material for information of intelligence value, conducted research, and wrote reports to satisfy a diverse customer set, including military commanders, multinational consumers, and the National Command Authority, which includes the President of the United States and the Secretary of Defense.

National Security Agency

Fort George G. Meade, Maryland
June 1997 - June 1998

As a National Security Operations Center Watch Officer, acted as NSA's focal point for all incoming and outgoing information pertaining to a major world crisis. Directly supported military operations and policy makers in Washington, D.C. Responded to queries from and prepared daily reports for such customers as the White House, the National Security Council, the Central Intelligence Agency (CIA), the Pentagon, and various foreign allies. Ensured the safety of American military forces deployed as part of the United Nations Preventive Deployment (UNPREDEP) force.

Translator

Provided linguistic support for a highly sensitive investigation.

Federal Bureau of Investigation

New York City, New York
October 1996 - January 1997

Chief of Open Source Information (OSINT)

Developed and implemented the first Air Intelligence Agency open-source electronic media exploitation cell in the Pacific Theater of operations. Identified equipment needs and performed installation and set-up of computer systems. Attended periodical OSINT training with the 500th Military Intelligence Group, Camp Zama, Japan.

315th Intelligence Squadron

Yokota Air Base, Japan
October 1996 - April 1997

Linguist Debriefing/Interrogator

Collected and reported perishable general military intelligence information using Human Resources Intelligence (HUMINT) methods under the auspices of the Defense Intelligence Agency. Trained to interrogate enemy prisoners of war in support of Air Force objectives. Translated foreign-language documents into English and developed instructional materials. Liaison to officers of the Japan Air Self Defense Forces.

February 1994 - October 1996

Cryptologic Linguist

Monitored and transcribed selected voice communications. Ensured timely reporting of highly sensitive, perishable information. Received special recognition from the Defense Special Missile and Astronautics Center for single-handedly providing coverage of a rare, high-interest event.

Misawa Security Operations Center

Misawa Air Base, Japan
December 1988 - December 1993

Awards and Honors

Joint Service Achievement Medal

Department of Defense

Awarded for meritorious service while assigned to the National Security Operations Center, National Security Agency/Central Security Service in support of Operations Provide Promise, Deliberate Force, Joint Endeavor, and Joint Guard.

National Intelligence Meritorious Unit Citation

John Deutch, Director of Central Intelligence

Awarded for "outstanding direction, implementation, and support for the baseline inspection period of the Strategic Arms Reduction Treaty."

Air Force Achievement Medal

Awarded for "debriefing and reporting skills during an intense treaty verification inspection period [resulting in] over 40 reports responding to national-level requirements." I was also recognized for my "superior bilingual abilities" due to my development of "Japanese-language debriefing instruction materials to aid officers of the Japan Air Self-Defense Force." Finally, "as a qualified combat interrogator," I provided "valuable training to aircrews while role-playing as the enemy during ... Survival, Evasion, Resistance, and Escape" exercises.

Air Force Achievement Medal

Received special recognition from the Defense Special Missile and Astronautics Center for providing coverage of a rare, high-interest event.

Technology Experience

Social and Emerging Media

WordPress, Drupal, Joomla, Podcasting, and integration with popular services such as Twitter, Digg, and Facebook.

Programming

XHTML/CSS, JavaScript, PHP/MySQL, Flash/ActionScript, currently exploring Ruby, on Rails, Python, and iPhone development in Objective-C

Graphic Design

Adobe Photoshop and Illustrator

Platforms

Macintosh, Unix, and Windows

Foreign Languages

Japanese (Fluent)

Russian (Functional)

French (Rudimentary)

Miscellaneous

Possessed and maintained a TOP SECRET security clearance with Special Background Investigation (TS/SBI) from 1988 to 1998; clearance and access retired upon separation from military service.

NSA Security Polygraph (June 1997)
